Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

REISSUE APPLICATION

Specification

The amendment filed July 30, 2002 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The text insertion on pages 2-6 of the amendment does not have support in the specification as originally filed. Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1761

Claims 1-43 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. In the claims, the recitations “hot gases” and “at least a portion” of the heat exchanger being within the vat are deemed new matter.

Claim Rejections - 35 USC § 251

Claim 1-43 are rejected under 35 U.S.C. 251 as being based upon new matter added to the patent for which reissue is sought. The added material which is not supported by the prior patent is as follows: In the claims, the recitations “hot gases” and “at least a portion of” the heat exchanger being within the vat are deemed new matter. The specification only refers to “air”, therefore applicant is only limited to air. The specification is only directed to the heat exchanger “to be disposed” within vat 12. There does not appear to be support for “at least a portion”.

Art Unit: 1761

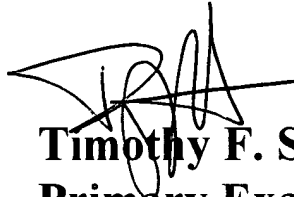

Claims 1-43 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. It appears from the recitations “hot gases” and “at least a portion of the heat exchanger” that applicant is broadening scope. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

The reissue declaration filed with this application is defective because it does not appear that applicant signed the declaration. It has been initialed only. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 1-43 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175. The nature of the defect in the declaration is set forth in the discussion above in this Office action.
